

ProFoot Pedestal System

BPIR Declaration

Designated building product: Class 1

Declaration

Marshall Innovations Ltd has provided this declaration to satisfy the provisions of Schedule 1(d) of the Building (Building Product Information Requirements) Regulations 2022.

Product/system

Name	ProFoot Pedestal System
------	-------------------------

Description

The ProFoot Pedestal System incorporates a range of components including adjustable pedestals, aluminium joists, grills, clips and fixings to create a deck to support a timber or tile finish. The exterior decking substructure system has a height range beginning as low as 10mm up to 500mm +. Installed over existing decks and patios, new low slope roofs and balconies & an option for grassed areas.

Scope of use

The ProFoot System has been designed for use as an exterior deck framing system installed over low pitch roofs and balconies. The system can also be used over compacted hard fill and grassed areas with certain design criteria.

Conditions of use

Consult with Marshall Innovations who will provide a full take off service to ensure your deck is designed to specification.

Where someone could fall more than 1.0m from a deck or balcony some form a balustrade or barrier is required at a minimum height of 1.0m The ProFoot is to be specifically designed to support any heavy items such as pools, spa pools, planter boxes etc.

Contributions to compliance

B1 Structure: Performance B1.3.1, B1.3.2 and B1.3.4 B2 Durability: Performance B2.3.1(b) F2 Hazardous Materials: F2.3.1
