PRODUCT DATA SHEET

PRODUCT DESCRIPTION

The shear wall connector compensates for slight height differences between the walls. The flatness of the connector offers the perfect shape for this purpose. The screw connection also pulls both walls to the connector horizontally, thus straightening out slight unevenness here as well.

SHEAR WALL CONNECTOR

ADVANTAGES

- Allows for a high shear force transmission between the wall elements
- · Compensates for unevenness between the components
- Does not protrude from the wall

MATERIAL

Cast steel

KonstruX ST SK Ø 8.0 mm Scope of delivery including screws

IMAGES OF APPLICATIONS

Compensating unevenness from screws and edges
